Sponsorship Deck

**ADVANCING TECH INNOVATION THROUGH PARTNERSHIPS
TO CREATE OPPORTUNITIES FOR ALL**

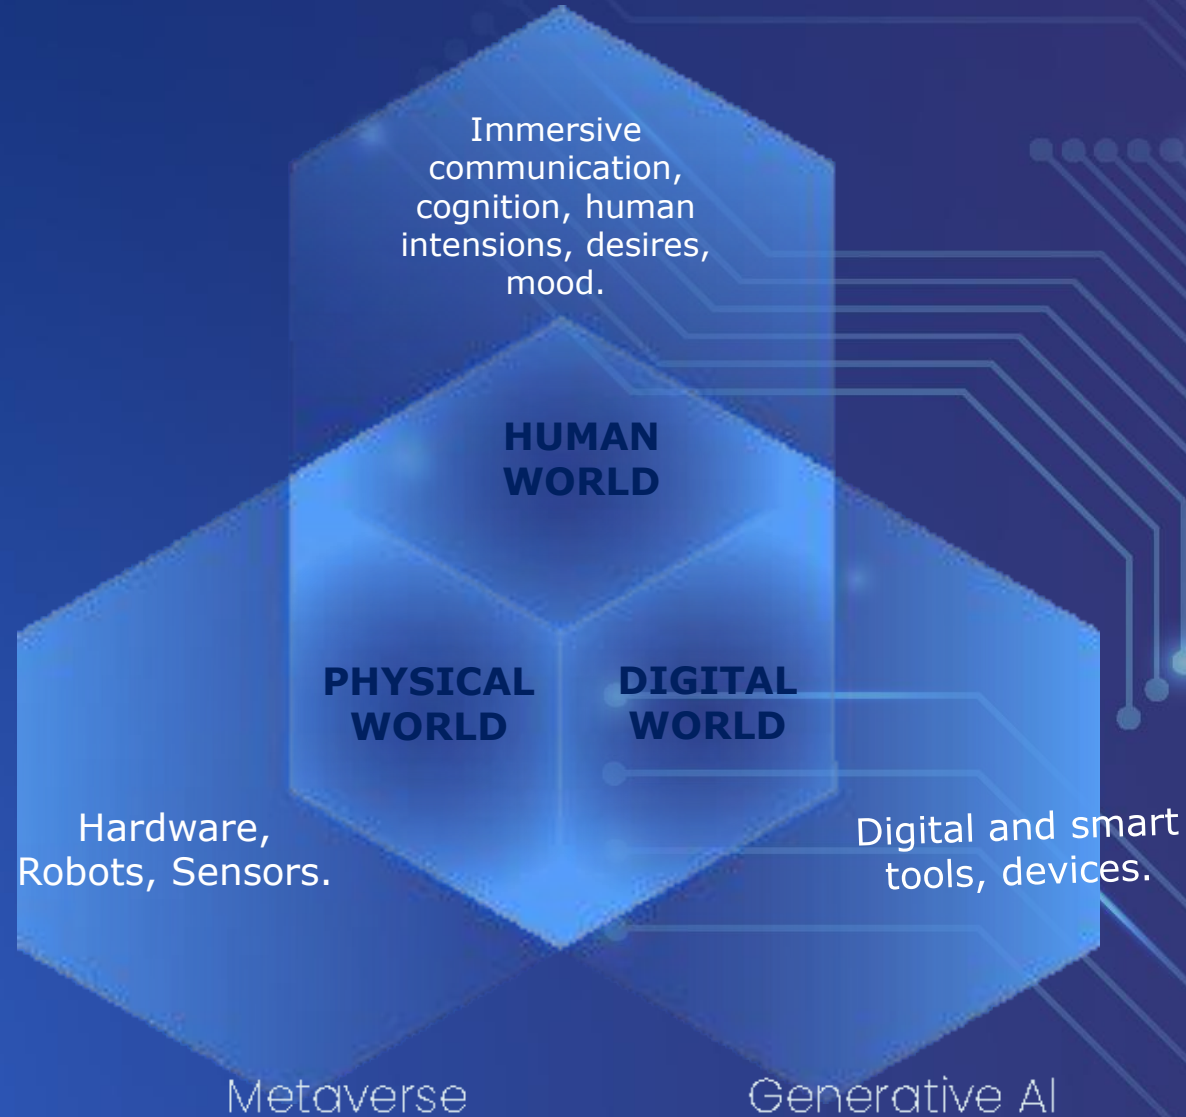

Pearson Convention Center, GTA, ON Canada

26 - 27 Oct | 17.00 - 20.00

Produced By

EVERYTHING IS CONNECTED

WHO WE ARE?

Welcome to the **not-for-profit (for impact)** initiative DecodingTECH.Zone (DTZ) by Testoper Community! The Zone is where we decode the full power of the next generation of new technologies for individuals and businesses to thrive.

We are an **open community** and **people-led grassroots movement** supported by senior executives from reputed companies in the hi-tech Industry. We understand that the tech future belongs to ecosystem play, not silo play.

Our massive transformative purpose (MTP) is
"Advancing tech innovation through partnerships to create opportunities for all"

We work with our partners of all sizes from all geographies within Canada and globally, including individuals and businesses. Join us in designing the future of technology and its impact on the world!

WHY WE DO IT?

We are a strong proponent of age-friendly, diverse and inclusive opportunities where businesses from all geographies and individuals with different backgrounds can thrive.

We believe in enabling equal opportunities through our initiative, which are real grounds for innovation to make the most significant and accelerated difference. Our goals are:

ADVANCING TECH INNOVATION IN SUB-URBAN AND RURAL

BY ENABLING PUBLIC, PRIVATE AND ACADEMIC PARTNERSHIP

TO CREATE BUSINESS AND JOB OPPORTUNITIES FOR ALL

HOW WE DO IT?

We put efforts into bringing together the most successful leaders and companies across the end-to-end ecosystem in the value chain, from connectivity to infrastructure, applications, and services, to inspire and help shape the future of the next generation of new technologies era into a reality.

Industry X.0

Metaverse

Generative AI

Web 3.0

Let us dive into this year's conference...

2022 EDITION WAS A GREAT SUCCESS

25+
Sessions

44+
Speakers

22+
Exhibitors

260+
Attendees

160+
Companies

After successfully delivering the objective of our massive transformative purpose (MTP) during our first edition, we aim to advance it further and exponentially grow year after year.

WHAT IS HAPPENING IN THE WORLD?

These days, it's hard to avoid the terms Industry X.0, Metaverse, ChatGPT, and Web 3.0 era and how they will revolutionize and create opportunities for all—millions of jobs and trillions of business opportunities.

In DTZ 2023, we will decode technologies that make this era one of possibility to take on technology-enabled opportunities. Our themes are:

5G / 6G

Future Networks

Industry X.0

VR / AR

Immersiveness

Metaverse

AI / ML

Intelligence

Generative AI

Blockchain

Decentralization

Web 3.0

HOW WILL IT LOOK LIKE

Advancing tech innovation through partnerships to create opportunities for all in many different ways.
